Making Good on Our Promise.

Our priority has always been *you*. We are overjoyed that record numbers of individuals are making the decision to become a teacher. Through this exciting surge of newcomers, we'll be the first to acknowledge the strain that COVID-19 has had on our response time. We promise that we've been listening. We've heard your requests, and we're here to make good on our promise.

As we move forward, we are delighted to announce that we have welcomed new staff members and will continue to hire more in an effort to improve our response time. We sincerely appreciate how patient you have been and are so thankful you're here!

Thank you!
